*Flowers represent the radiant joy and beauty of Nature,  
symbolic of its aspiration towards the Light.*

Shradhanjali is a handicraft unit of **Auroville**, the International Township located in rural Tamil Nadu, 165 km south of Chennai, South India.

Since the beginning, its goals have been:

- To gather the wealth of nature as expressed through flowers, foliage and seeds and convert this into beautiful products in a conscious and caring way.
- To generate wealth for the growth of Auroville by doing business in an ethical, conscious manner.

- To provide a pleasant, stimulating, enriching, educative and empowering working environment for the young village girls it employs.

At each stage, the manufacturing process is characterized by a conscious intention to work harmoniously with **Nature**.

Profits generated by **Shradhanjali** are channeled back into the community for its maintenance and development.

Flowers represent the radiant joy and beauty of Nature, symbolic of its aspiration towards the Light. Since ancient times, flowers have traditionally served to convey feelings, and in India, to worship as well.

Every flower and plant has a “**vibration**”, and at Shradhanjali we try to capture and preserve the unique quality of each blossom, grass, leaf, seed or seedpod in our intricately worked dried and pressed flowers and natural seeds ranges.

Shradhanjali is totally committed to using production processes and techniques that are

compatible with the environment. The building is equipped with solar energy, wastewater is recycled and rainwater is harvested.

The work area is very well ventilated, with ample natural light. The young women are comfortably seated and have sufficient working space and companionship.

Assorted flower cards (PU410, PU440)

The flowers and plants are grown in our own garden, using only organic manure and natural materials as deterrents against caterpillars and insects. Drip irrigation is used to prevent water wastage.

Flowers are **hand-picked** every day and dried in cardboard presses. The dried plant material is stocked in heated cupboards to prevent fungus and moisture damaging it. The **pressed** flowers have no preservative added to them.

In the **Pushpanjali** range, nature's artistry is expertly captured with delicate grasses, leaves and flowers, to create cards for any and every occasion.

Staff member decorating for the 30 years celebration

At Shradhanjali, we endeavour to participate in the Auroville adventure fully and truly, by continuing to work towards **perfection** in the quality of our products, in our relationship with our employees as well as our buyers and suppliers, in caring for and using the environment in a **sustainable** way and lastly in participating in the development of Auroville in a dynamic manner.

In March 2010, we celebrated **30 years** of Shradhanjali. Many friends, well-wishers, previous workers and collaborators joined us for a small celebration. With flowers adorning every corner, Shradhanjali looked suitably bedecked.

Seedpods sway delicately in the breeze, bringing a fresh scent of nature into one's home.

With **Beejika**, Shradhanjali showcases the marvels and uniqueness of Nature, reflected in the seeds of Auroville's trees, planted over the last 4 decades.

The seeds and seedpods of the local trees are harvested seasonally and sun-dried. They are coated with transparent varnish for protection.

**Colourful** and exquisitely shaped seeds are fashioned into jewellery and other home products such as doorbells, mobiles and key chains.

The abacus, made with the seeds of 5 trees (Polyalthia longifolia, Euterpe edulis, Enterolobium cyclocarpum, Eucalyptus and Canavalia), is a wonderful way for children to study nature while learning to count.

Most products are made of handmade paper, which is processed by recycling cotton rags and adding other natural fibres like straw, wool, algae, banana pulp or bamboo.

## Shradhanjali and Auroville

Auroville's diverse commercial activities provide the essential means for this experimental international township to grow and develop. In Auroville, work is a means to find oneself; it is one's yog-sadhana. *"For in this ideal place money would be no more the sovereign lord. Individual merit will have a greater importance than the value due to material wealth and social position. Work would not be there as the means of gaining one's livelihood, it would be the means whereby to express oneself, develop one's capacities and possibilities while doing at the same time service to the whole group, which on its side would provide for each one's subsistence and for the field of his work."* The Mother in *A Dream*

Auroville seeks viable ways and means to create a better, more sustainable society, based on truer values. The Charter of Auroville says: *"Auroville wants to be the bridge between the past and the future. Taking advantage of all discoveries from without and from within, Auroville will boldly spring towards future realisations."*

Shradhanjali has been attempting to reach these lofty objectives for the past 30 years.
